Employment

HBK Capital Management

Independent Consultant (London, UK) 03/2026-today

Quantitative research and development of new software packages to improve the fund's fixed income trading infrastructure. Design of narrowly scoped AI agents to extend these packages in a structured way, limiting bloat and unnecessary complexity. Development and internal knowledge sharing of state-of-the-art workflows with frontier and open-source AI models, APIs and harnesses: targeted context provision, local memory, cost management, and agent-focused terminal multiplexing.

Bank of England

Economist (London, UK) 2018-2020

Research and analysis as co-author of staff working papers on yield curve pricing and demand for central bank reserves. Policy briefing work for the MPC and FPC involving econometric data analysis, presentations and speaking notes.

Education

Delft University of Technology

Ph.D. in Artificial Intelligence: "Counterfactual Explanations and Algorithmic Recourse for Trustworthy AI" 2021-2026

Barcelona School of Economics (BSE)

Master Degree in Data Science, GPA 8.67/10 2020-2021

Master Degree in Economics and Finance, GPA 9.03/10 (top student) 2017-2018
